# Relax chair mechanism Würzburg

The relax chair mechanism Würzburg is a proven and flexible relax chair mechanism which can be adjusted in different sizes without any extra accessories. The extended position offers a very large foot rest.

**All relax chair mechanisms Würzburg basically offer the following characteristics:**

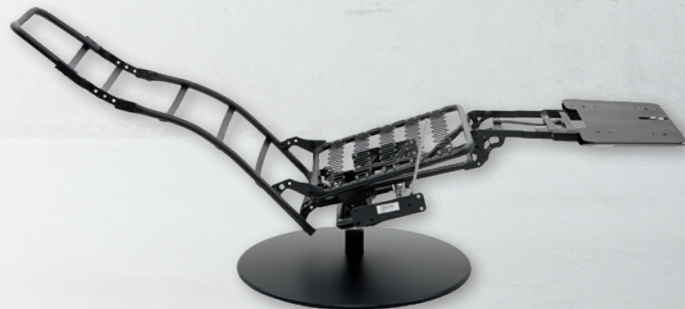

- seat depth and back height adjustable several times
- seat width and seat form choosable
- seat height choosable due to swivels with various heights
- optional foot rest usable as upholstery assistance

**We offer you the relax chair mechanism Würzburg in following variants:**
